

Agência Nacional de Aviação Civil

Of. 0401/2008-GGCP

São José dos Campos, 19 March 2008.

Mr. Kelley Posey
Engineering Manager
Essex PB&R Corporation
8007 Chivvis Drive
St Louis, MO 63123
USA

**Subject: Aeronautical Product Design Approval
Project Number H.11-0087-0001.**

Dear Sir,

1. After reviewing the data you submitted to comply with Brazilian requirements set forth in the FAA AC 21-2K, the ANAC grants to Essex PB&R Corporation this design approval for the Crewmember Protective Breathing Equipment, P/N DP3113(), Model Number MR-100(), TSO C99 and TSO C116.
2. Please be advised that any further modification of the current approved design should be submitted to ANAC after FAA approval.
3. As a design approval holder, you are required to report to the ANAC any failure, malfunction or defect related to the products identified herein.
4. You must also notify the ANAC when you discontinue the production of these articles.
5. Mr. Moraes is the project officer assigned for this program. For additional information on this subject, he may be contacted directly by telephone at 55 (12) 3797-2515, by fax at 55 (12) 3797-2330 or by email jcarlos.moraes@anac.gov.br.

Yours sincerely,

Cláudio Passos Simão
General Manager
